

REMARKS

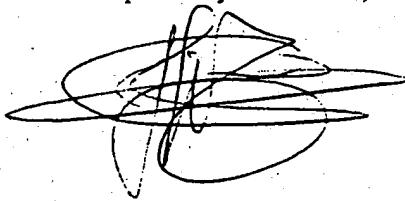

New independent claim 19 is hereby introduced. No claims are amended or cancelled by the present amendment.

The new claim has support in the written description. *See, e.g.*, Application, p. 35, originally filed claim 10, which was inadvertently canceled in the present case. This newly introduced claim 19 recites, *inter alia*, "R⁶ is aminocarbonyl". This matter is not recited in claim 8 of the parent case, U.S. Ser. No. 08/938,602, now U.S. Patent No. 6,380,194 (reciting, *inter alia*, "R⁶ is cyano" in claim 8 therein). Applicants respectfully submit that claim 19 is part of the group of claims (Group I) that was elected in the present case (Response to Restriction Requirement, filed May 20, 2002) after the restriction requirement in the Office Action dated March 26, 2002.

In view of the foregoing remarks, Applicants respectfully submit that this Application is maintained in its condition for allowance, and passage to issue is earnestly requested.

No marked-up version of the claims is attached because no claim has been amended.

Respectfully submitted,

Jesús Juanós i Timoneda, PhD
Attorney for Applicants
